PREAMBLE ...

We pride ourselves in offering value for money – we may not be “the cheapest quote” but in the longer term we are often the best value. We do offer both hourly rates and item pricing for certain things but our preferred modus operandi is to provide a written priced scope of work against a brief. We have found that our clients achieve the most favourable result from us by working on a project-by-project basis rather than under a retainer arrangement. Clients and potential clients are invited to ask us for a no obligation written priced appraisal.

UNDERTAKING ...

We never promise more than we can deliver. We deliver on time, to specification and on budget. We are always in pursuit of excellence.

CONSULTANCY WORK ...

Typically we charge our consultancy services at AU\$250.00/hour (+ GST) per consultant plus out-of-pocket expenses.

STUDIO WORK – CREATION (*photography, videography, audio*) ...

Usually this type of work requires more than one person and a varied amount of kit. As a minimum we charge for one operator and one assistant. Currently this is charged at AU\$150.00/hour (+GST) with a minimum of two consecutive hours. Sessions requiring more than two persons are charged pro rate this rate. Projects requiring travel include additional charges for travel time and out-of-pocket expenses.

STUDIO WORK - PROCESSING ...

Normally we charge this at AU\$90.00/hour (+GST) per operator with a minimum of one hour’s charge and thereafter at the nearest ¼ hour above the time taken. Processing on location cost will be greater than this and is mostly subject to how much kit needs to be taken to the location, insurance costs and the facilities available at the location: usually the charge for onsite processing is the same as the “STUDIO WORK – CREATION” charge.

WAITING TIME ...

Delays due to third parties is charged at the rate for the job.

THIRD PARTY EXPERTISE ...

Some projects require additional third party expertise/services. Where required this will be identified within the written proposal. Additional fees and charges may apply but they will be identified in our proposal.

ARCHIVAL PRINTS & FINISHING etc. ...

Please refer to our separate price lists or seek written no obligation pricing from us.

Please note this document is issued for guidance only and nothing within this document, implied or otherwise, is intended to be an offer or a terms and conditions of contract from us.

Subject to the terms and conditions contained within any written proposal from us (which due to many variables may vary from project to project).
